

## WI goes Green: \$100MM for Greening of Manufacturers

Wisconsin recently created a \$100MM loan fund for manufacturing companies involved in “greening” operations.

Manufacturing businesses that do any of the following may be eligible for loan funds:

1. implement energy efficient practices into their facilities,
2. retool to manufacture products that support the green economy,
3. establish or expand domestic clean energy manufacturing, or
4. create jobs or retain positions involved in any of the above activities.

Priority will be given to existing WI business and idle facilities and certain wage requirements will have to be met for eligibility.
